Hermann, DL2NUD, will be on EME-Tour again in begin of the year 2011. That time he is acompanied by Stefan,DL9GRE, who will be qrv on HF. 1st goal these time will be FK8 (New Caledonia), Grid RG37 - later he will change QTH to YJ (Vanuatu), Grid RH42 LATEST NEWS from Hermann, DL2NUD dated 2011-01-19: Hermann is faced with the next problem! The equipment is already over one week at FK8 but he is not able to get it out from the customs! Since he arrived at New Caledonia he is day by day there and try his best! Maybe his timetable will be changed due to that circumstances later. SOURCE: Hermann, DL2NUD, direct to MMMonVHF

Rare Square Activation - QE48 / Rex VK7MO has asked me to pass on the news that he will be active on Mt Poimena (QE48) in north-eastern Tasmania this Sunday 23/1 from about 11am local time. The coords of Mt Poimena are 41.198734S 148.012078E. Rex will have 2m 70cm, 23cm and 10GHz and will also, of course, be able to run JT65 on any of those bands, if required. The operation will require lugging equipment and generator up a 600m path to the summit, so it is unlikely to be repeated anytime soon. Rex will be in mobile range and should also be available on the VK Logger. SOURCE: Dave, VK3HZ via [VK-VHF]

** Working K5QE (EM31CJ) in the ARRL VHF Contest **

Hello to everyone in the EME community. This year, the ARRL January VHF Contest will be held Jan 22nd and 23rd. We want to work as many EME stations on 2M and 432 as possible to increase our grid count. Please help us with this event by working us on JT65b or CW. Thank you very much. Read all about the Contest activity in details at: http://www.mmmonvhf.de/latest.php?id=3672

SOURCE: tnx to Marshall, K5QE, direct to MMMonVHF

** KL7AA (BP51) qrv in the ARRL VHF Contest **

Running new EME stn at KL7AA Club site (BP51BE)
Active primarily 144mhz after 0800z 23jan2010.

** KB7Q/7 QRV from WY and ND on 6m EME? **

Hi Lance, I'm up to put ND and WY on 6M EME this summer - it would
be nice to know how much interest there is. It looks like early June
and then early July are the best windows, from what I quick run of
GJTracker tells me. I might just spring for a bigger Yagi too. Good
going on all the new EME contacts and the potential for more! Just
keep that freezing rain away! The weather is global warming crazy
Today Bozeman is 44 degrees and swampy - go figure. Anyhow, let the
EU boys know that I'm good for ND/WY this summer if I get enough
interest. and on we go...

** 6M EME TF3CY (HP94AD) QRV 20-23jan 2011 **

Hi all, I will be with my portable setup on a pretty good spot
during next low degradation period on 6m EME. Setup is limited
to wind ï¿½ and the forecast is bit iffy for the Tuesday/Friday ï¿½
but showing pretty calm weather for late Friday and sat/sun. So,
my aim is to get as many QSOï¿½s as possible ï¿½ and to give you TF
in the log ;) Read about the LOG and more details at our NEWS:
http://www.mmmonvhf.de/latest.php?id=3665

** M & M EME DXpedition 2011 **

Gents, glad to announce that the M & M - team will be on the road(?)
again for another multiband moonbounce DXpedition from May 28th to
June 5th 2011. The activity will cover the 23cm DUBUS contest, as in
previous years. The destination will not be disclosed in advance,
but it will be an interesting location with a hard to get license...
So keep this time frame free from other commitments, which might
keep you from giving us a shout off the rock. 73 de M & M

** IOTA Activity of PR2R from SA-024 **

Members of the Sï¿½o Paulo Association of Radioamadores (APRE) along
with some guest operators will be active as PR2R from Ilha Comprida
(Comprida Island; DIB SP03), located in the southern state of Sao
Paulo, between January 28-30th. Activity will be on 80/40/20/15/10
/6/2 meters. Operators mentioned are: Paulo/PY2ZZ, Euclides/PY2EV,
Claudio/PY3NZ, Cristiano/PY3UK, Ronan/PY2RAR, Marcelo/PY2OX,
Filipe/PU2TEA and Rafael/PU2RFS. QSL via Manager PY2OP ,
(see QRZ.com for details. The activation of this island
corresponds to a project of more complex dimensions that consist
of placing on the air all blockhouses, islands and lighthouses of
the State of Sao Paulo. More detailed information will be
available soon at: http://www.apre.com.br
SOURCE: tnx to Bill, NG3K via Ohio/Penn DX Bulletin #994

** FJ, ST. BARTHELEMY qrv HF and 50 MHz in May **

Wim, OS1T/ON4CIT, will be active as FJ/OS1T from St. Barthelemy
Island (NA-146, DIFO FJ-001, WLOTA LH-0377) between May 14-22nd.
Activity will be on 40-6 meters using mainly SSB and RTTY.
The suggested frequencies are:
SSB - 7072, 14192, 18132, 21292, 24972, 28492 and 50115 kHz
RTTY - 7042, 10142, 18102, 21082, 24922 and 28082 kHz
QSL via his home callsign, by the Bureau or direct (see QRZ.com)
Visit his FJ/OS1T Web page at:
http://on4cit.webs.com/fjos1texpedition2011.htm

** Activity on HF and 50 MHz in April from T31 **

The expected QRV dates for the upcoming T31A DXpedition to Kanton Island (Central Kiribati, OC-043) [425DXN 1015] are 18-28 April. An international team of twelve operators (namely EA1IR, K6ZH, N1EMC, N6HC, N7CQQ, N7CW, N9NS, UX2HO, W2IJ, W6KK, W9IXX and YT1AD) will be active on 160-6 metres SSB, CW and RTTY from two operating sites. Two team members will arrive in Apia on 6 April to inspect the equipment shipped from California and operate from 5W as time allows. The entire team will leave Apia on the 13th, and sail approximately four days. QSL via W2IJ, direct or bureau. Further information can be found at www.t31a.com

** JX, JAN MAYEN qrv HF and 50 MHz in July **

The Jan Mayen DXpedition set between July 6-14th, 2011 and led by Stan, SQ8X, has announced their group callsign will be JX7VPA. Currently, the team consists of: Stan/SQ8X (team leader), Pete/ SQ9DIE, Vicky/SV2KBS, Decan/EI6FR, Leszek/NI1L, Tomek/SQ9C, Bernie/HB9ASZ, Pekka/OH2TA and Deon/K6WH Deon. The group plans to be on the air for 8 days with 2-3 stations. Stan also states, "Due to polar summer season at Jan Mayen Island with broad daylight 24/7 the team will not operate on 160-80 meters ? those bands will be totally dead at that time. The DXpedition will focus on 30-6 m. and our main modes will be CW and RTTY/PSK, with some SSB if conditions will be good enough to operate as much as we wish to. The team will also check conditions on the 40m band, but the band may also be not usable at that time of the year. The team will have a professional TV crew on board that will prepare a broadcast documentary about the project and the island." Updated details such as operators and QSL route will be available soon on the following Web page (currently under construction) at: http://janmayen2011.org SOURCE: Ohio/Penn DX Bulletin #994
